RE: John Mahon's Child Raising Seminar

Dear Sirs:

Last year I attended the Early Years of Child Raising seminar given by John Mahon in Oklahoma. At that time, my children were 2 and 3 years old. I was unclear as to the biblical mandates of child raising and how much discipline and how much spanking to use. I did not know exactly how much balance between respect, love and discipline versus punishment to use.

The child raising seminar was so helpful to myself and Andrea, my wife and putting those principals to practice have really helped my two young girls. They are now 3 and 4 years old and I have noted significant improvement.

The seminar helped us to become more consistent, helped us to communicate better about child raising between us and by setting limits and boundaries our children know what to expect when we tell them what to do or not to do.

Thus the value of the seminar was extremely helpful and I would recommend it to every parent with young children.

If you have any further questions, do not hesitate to contact me.

Sincerely,

John D. Mertz, M.D.
